# CATALOG

***"We specialize in the little details!"<sup>SM</sup>***

We are very pleased to present you with our latest catalog – created especially for you. One quick look and you will see that it is complete with all the products and solutions your business needs every day.

With one phone call, fax or visit, we deliver what you want from one source. Our team is available to serve you and has the technical expertise to fill all your needs – plus we will help you manage overall procurement costs by providing you improved order efficiency, reduction of the number of invoices you receive and a simplification of your accounts payable.

***"Blue...is the new green!"<sup>SM</sup>***

As a firm committed to environmental awareness and responsible (green) practices, Blue Ribbon Supply has always been mindful of our actions and how they impact the environment around us. Our goal is to maximize your satisfaction with the products and services we provide, while constantly exploring ways to improve our daily environmental performance.

We proactively search for ways to upgrade our business procedures to reduce any detrimental effects our activities may have on our planet. This is being implemented through advanced delivery planning, preset delivery schedules, the use of natural and activity-based lighting throughout our office and distribution facility, reducing the need to consume raw materials and the recycling of all recyclable items to help reduce the amount of waste that could end up in landfills.

Blue Ribbon Supply can help you save our environment too! Because we stock thousands of products from multiple manufacturers for you, you can order all your products from multiple vendors through a single source. This allows you to receive more manageable quantities during our pre-planned delivery times.

***"Contact us today!"***

Our friendly, knowledgeable customer service representatives are here ready and waiting to help you. We look forward to hearing from you today!
